Subject: Cost evolution comparison among EUROCONTROL and ANSPs

Dear Sir,

In the context of the presentation of the so-called “New Employment Policy”, we would like to request an updated version of the comparison between the evolution of the EUROCONTROL costs and the ANSPs costs, a comparison presented in the past at the SCF meetings.

It would be interesting to have the graph updated showing the evolution of the Agency Cost-Base as from 2005 (Parts I & IX) which is not presented anymore in the new Agency Business Plan.

It would be also of great help to know the percentage of temporary contracts that big ANSPs have and for which functions and their employment policy.

We cannot even begin to contemplate discussions based on such a vague proposal. Much more information is needed to facilitate an educated response

Yours sincerely,

Benoît BAMS
President FFPE

Volker DICK
President TUEM

Georges TSOLOS
Vice-President USB

María AGUILERA
President USEF
